Study Club Hears Treatise About Candidates

The Three-In-One Study Club met Tuesday evening, Nov. 3, in the home of Mrs. Sam Sawyer, with Mrs. Kathryn Dorsey and Mrs. E. M. Warr as co-hosts.

In the absence of the president, Mrs. Althea Prescott, the vice president, Mrs. C. E. Prescott, presided. "Thought for the Month" and a Thanksgiving prayer were given by Mrs. G. P. Mathis. A paper on "The Candidates for President and Vice President" was given by Miss Gladys Clark.

During the business session a letter of resignation from

Mrs. E. M. Cobbitt was read. Preceding the meeting the hostesses served a delicious plate to: Mrs. Bryan Taylor, Miss Gladys Clark, Mrs. P. O. Mathis, Mrs. Sam Rowe, Mrs. Will Kendrick, Mrs. L. A. Boyd, Mrs. Luna Doyle Rigo, Mrs. Kasper Anderson, Mrs. B. H. Ryan, Mrs. L. E. Gish, Mrs. L. P. Morrow, Mrs. C. E. Prescott, Mrs. R. S. Smith, Mrs. Paul Windham, Mrs. Ralph Hendricks and Mrs. M. L. Seay.

Outdoor Supper At Beach Cottage Is Enjoyed

Major and Mrs. D. L. B. Y. an, of Elba, and Mr. and Mrs. Guy Bryan of Opelika, entertained at a delightful outdoor supper at their cottage at Genit Beach Monday evening, Oct. 31.

Following the delicious fish supper the guests were invited into the spacious living room of the cottage where a blazing wood fire burning in a large old fashioned fireplace created a pleasant and cozy atmosphere. Light were low and Mr. and Mrs. Bryan showed colored films of his and Mrs. Bryan's recent travels through the Western States and Canada.

Those who were invited were: Mr. and Mrs. Henry Paulk, Mr. and Mrs. Ivey King, Mr. and Mrs. Quince Grier, and Mrs. C. E. Evans of Opelika and Mr. and Mrs. F. A. W. Kendrick of Elba.

Azalea Garden Club Hears Program On Roses

The regular monthly meeting of the Azalea Garden Club was entertained in the home of Mrs. L. E. Murphy, Jr., with Mrs. Gladys Clark serving as co-hostess Thursday morning, November 3.

The guests were seated in the den and later invited to the attractively appointed service of Prime Cake and coffee. Mrs. F. H. Murphy, Jr., president, presided. In the absence of the treasurer, Mrs. C. S. Vaughan Jr., her report was given by Mrs. S. E. Grier.

Mrs. Gladys Dorsey presented the program on "Roses in Every Garden." An arrangement of lovely rosebuds given by Mrs. T. T. Rhodes was admired and questions were answered by her on growing roses successfully.

The following members were present: Mrs. F. H. Murphy, Mrs. Elmer Taylor, Mrs. F. A. Farris, Mrs. J. M. Kimmey, Mrs. T. T. Rhodes, Mrs. L. P. Mullins, Mrs. Dorel Cook, Mrs. Claude Dorsey, Mrs. Sam Rowe, Miss Zada Rowe, Mrs. James English, Miss Gladys Clark, Mrs. Lewey Stephens, Jr.

The nearly four million projects completed by 2,300,000 4-H club boys and girls in a single year is further proof that the "learn by doing" system is keeping young minds and hands busy. As a matter of fact, youth specialists say that the hundred or so categories of 4-H projects are the very backbone of the organization which has grown steadily for more than a half century.

During the past three decades the number of girls enrolled in 4-H has topped the boys in just about the same proportion, according to figures supplied by the USDA. There are presently some 200,000 more girls than boys in club work. Ages range from 10 to 21 years.

Originally planned to help farm youngsters, the voluntary educational program now claims nearly half its membership from city and non-farm rural homes. Apparently "pride of accomplishment" is a key factor in the success of this particular brand of youth organization.

Right from the very beginning of 4-H, interested parties have donated awards in recognition of top performance in citizenship, leadership and project achievement. This fall more than a thousand expensively made trophies will be given to the winners of the National 4-H Club Congress in Chicago will be given to state, sectional and national 4-H award winners. In addition about 200 teenagers will receive college scholarships, and one out of 15 members will win medals in local competition.

Six persons now engaged in Extension work and who are former 4-Hers will share \$18,000 in educational grants to be used in graduate study. Business firms that sponsor programs and awards include: Ford Motors, achievement; Ditt Matheson Chemical, alumni recognition; E. I. du Pont de Nemours, beef; Standard Brands, bread demonstration; Oliver, dairy; Caranation, dairy foods demonstration; Simplicity Pattern, dress review; Hercules Powder, entomology; Aradon Products Dept. of Allied Chemical, field crops; Betty Crocker of General Mills, food preparation.

Also, American Forest Products Industries, forestry; Whirlpool, frozen foods; Eli Lilly, health; John Deere, recreation; Moorman, Mfg. Slinger Sewing Machine, clothing leader training; Wm. Wrigley Jr., community relations; Ralston Purina, dog care and training; Pure Oil, public speaking; Chicago Board of Trade, grain marketing.

College scholarships and fellowships in amounts from \$50 to \$300 each are provided by: California Spray-Chemical, Homeless Division of Tuxton, Sperry and Hutchinson, Navy, Ferguson and the National 4-H Service Committee.

SMALL MISCHIEF

I call Bruce my combination angel-terror. Soon he will be four, and he is a fascinating mixture of mischief and goodness. At bedtime, I always tiptoe into his room to be sure he's covered. Then it is that I am struck by the innocence of his face in sleep. Then it is that I realize how helpless is this small dynamo, who plunges with such boundless energy about our house and yard all day. Then it is that I am struck by the awesomeness of my responsibility. I realize it is entirely up to me to see that Bruce learns right from wrong, to see that he grows into the sort of man who will be a credit to his family, his community, and his country. I must teach him to keep a steady heart and a level head, to resist the many temptations that will be strewn in his path, to hold honor and truth and integrity high.

When I think of my task, I send a small and special prayer to God to aid me. And I thank God for his Church on earth which, for years to come, will be helping me, again and again, in making my small mischief into a man.

SOIL CONSERVATION NEWS

By L. I. Lumpkin, S.C.S.

Area 7 is made up of nine Soil Conservation Districts. They are Barbour, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston and Pike County Districts. There are six other areas in Alabama composed of from 9 to 11 counties.

In each district are technicians of the Soil Conservation Service who are assigned to the districts to assist them with their soil and water problems.

Accomplishments in Area 7 during the past year were greater per man year of time than any other area in the state. For this we are very proud. These accomplishments were possible because of the fine leadership of District Board of Supervisors and hard work by the SCS technicians and the 87,000 operators in each of the nine districts.

During the past year 41 new farmers with some 67,000 acres of land became co-operators of the Districts. This brings the total number of district co-operators to 8,295 or approximately 1000 co-operators for each of the nine districts. In addition to the 41 new co-operators, 195 old co-operators had their farm plans revised and brought up to date.

Technicians visited and discussed plans with 5,433 district co-operators. In doing this they were able to know the needs and desires of each farmer. They then plan their work so that the assistance the farmers need can be given them at the proper time.

Soil and water conservation practices that farmers applied to the land in cooperation with their districts are:

(1) Conservation of riparian systems on 15,624 acres. These include grass - based rotations and others.

(2) More than 24,000 acres were seeded to pasture and hay.

(3) Trees were planted on almost 26,000 acres.

(4) Almost 5,500 acres of land was smoothed in order to terrace properly.

(5) Nearly 5.0 miles of parallel terrace were constructed with 434 acres of waterways to handle the runoff water.

(6) 114 farm ponds were built to furnish water to livestock and pleasure fishing to farm families.

(7) Woodlands were improved on more than 12,000 acres.

These practices are just part of the soil and water conservation jobs that wide awake farmers are applying to their land to protect it and make it better not only for their use but for the future of generations to come.

These practices are just part of the soil and water conservation jobs that wide awake farmers are applying to their land to protect it and make it better not only for their use but for the future of generations to come.

SOIL CONSERVATION NEWS

By L. I. Lumpkin, S.C.S.

Area 7 is made up of nine Soil Conservation Districts. They are Barbour, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston and Pike County Districts. There are six other areas in Alabama composed of from 9 to 11 counties.

In each district are technicians of the Soil Conservation Service who are assigned to the districts to assist them with their soil and water problems.

Accomplishments in Area 7 during the past year were greater per man year of time than any other area in the state. For this we are very proud. These accomplishments were possible because of the fine leadership of District Board of Supervisors and hard work by the SCS technicians and the 87,000 operators in each of the nine districts.

During the past year 41 new farmers with some 67,000 acres of land became co-operators of the Districts. This brings the total number of district co-operators to 8,295 or approximately 1000 co-operators for each of the nine districts. In addition to the 41 new co-operators, 195 old co-operators had their farm plans revised and brought up to date.

Technicians visited and discussed plans with 5,433 district co-operators. In doing this they were able to know the needs and desires of each farmer. They then plan their work so that the assistance the farmers need can be given them at the proper time.

Soil and water conservation practices that farmers applied to the land in cooperation with their districts are:

(1) Conservation of riparian systems on 15,624 acres. These include grass - based rotations and others.

(2) More than 24,000 acres were seeded to pasture and hay.

(3) Trees were planted on almost 26,000 acres.

(4) Almost 5,500 acres of land was smoothed in order to terrace properly.

(5) Nearly 5.0 miles of parallel terrace were constructed with 434 acres of waterways to handle the runoff water.

(6) 114 farm ponds were built to furnish water to livestock and pleasure fishing to farm families.

(7) Woodlands were improved on more than 12,000 acres.

These practices are just part of the soil and water conservation jobs that wide awake farmers are applying to their land to protect it and make it better not only for their use but for the future of generations to come.

Kinston FHA Has Full Week Schedule
The Kinston FHA and Home Economics classes observed "Home Economics Week" Oct. 24 through 28.

The observance was carried out through chapel programs each day of the week, Monday, Oct. 24, Polly Jones gave a report on her trip to the National FHA Convention in Washington, D. C.

Tues., Oct. 25, one of our talented young ladies, Don a Hatway presented several piano selections. Wednesday, Oct. 26, our recreation leader,

Brockton Beta Club Holds Monthly Meeting
The New Brockton Beta Club held its regular monthly meeting on Tuesday, Oct. 11, in Miss Jones's room. The vice-president, Pat Locklar, presided at the opening of the meeting, while the secretary recorded the minutes.

A committee was appointed by the president to be responsible for appointing a serving committee each month.

A new goal for Beta Club, stated by the vice president, is to give parts in Beta Club programs without reading them. The officers served as hostesses and the meeting was adjourned.
